

# The S-Line

with integrated EPSON® printer

Drop-in paper loading

Field replaceable

The S-Line is an innovatively designed All-in-one with an integrated EPSON 3" thermal printer. Its patented tool-less design allows the printer to be replaced in the field within minutes, without affecting the entire system.

The S-Line uses high quality components but is priced to compete, offering our Partners an attractive solution to win more deals with healthier profit margins.

- 12", 15", and 17" display sizes
- Intel Atom, up to Core 2 Duo processors
- Prints up to 250mm (9.8") per second
- Takes standard 80mm paper roll
- ESC/POS, Windows, OPOS printer driver
- Intel Gigabit network, 4 Serials, 6 USB

Dual Display

As a Point-of-Sale terminal, the S-Line will save on precious counter space. This extra space can be used to generate additional revenue by allowing the ability to display advertisements or impulse merchandise. The S-Line can also be strategically placed in the store as a Point-of-Information or Check-out kiosk to provide convenience and improve customer satisfaction.
